Summary

Software Engineer with 10+ years of experience in back-end, front-end, and mobile development. This experience includes working with microservices, clean code practices, and domain-focused design approaches. Strong experience with Kotlin, Node.js, React, and cloud infrastructure such as AWS and Kubernetes. Recently worked on a conversational AI agent using generative AI, leveraging LLMs and a RAG (Retrieval-Augmented Generation) approach to build context-aware interactions. Also experienced in technical leadership and collaborating with product, design, and business teams.

Technical Skills

Back-end: Kotlin, Spring Boot, Node.js, TypeScript, Ruby on Rails, Go, GraphQL, REST APIs **Front-end:** React, Angular.js, Vue.js, Ember.js, Styled Components, Storybook **Mobile:** React Native, Expo, Appcelerator Titanium **Infrastructure & DevOps:** AWS, Kubernetes, Terraform (IaC), Docker, Apache Kafka **Databases:** PostgreSQL, MySQL, Redis, MongoDB **AI & ML:** RAG, LLMs, Langflow, Langfuse, Prompt Engineering, AI Agents **Practices:** Microservices, Clean Architecture, DDD, TDD, CI/CD, Automated Testing (Jest, Cypress)

Professional Experience

Senior Software Engineer | Creditas

Jan/2022 – Present · Remote/Hybrid

- Part of the Home tribe (home equity loans) at Brazil's largest online secured credit platform, across the Acquisition, Sales Experience and **AI Home** squads.

- Development and maintenance of microservices in **Kotlin/Spring Boot**, BFFs in **Node.js/GraphQL** and front-ends in **React**.
- Operation of services on **Kubernetes on AWS** with **Terraform** as IaC, communication via HTTP, **Kafka**, message queues with **SQS** and pub/sub with **SNS**, with **PostgreSQL** as the primary database and **MongoDB** in specific use cases.
- Built a **RAG-based** conversational **AI Agent** for WhatsApp using **Langflow** for flow orchestration, **Langfuse** for prompt management and observability, **Twilio** integration and a proprietary knowledge base; involved **Prompt Engineering** and **LLM** fine-tuning practices.
- Applied **DDD** in microservices design and collaborated directly with engineering, product, design, commercial, marketing and analytics stakeholders to ensure strategic alignment of initiatives.
- Migration and maintenance of legacy systems in **Ruby** (Hanami) and **Ember.js**.

Kotlin Spring Boot Node.js GraphQL React Ruby Kafka AWS SQS SNS
 Kubernetes Terraform PostgreSQL MongoDB DDD Microservices RAG LLM
 Langflow Langfuse Twilio AI Agents Prompt Engineering

Lead Back-end Developer | WisePay

Mar/2021 – Dec/2021 · Remote/Hybrid

- Technical leadership of the back-end team: mentoring, sprint management and alignment with business objectives.
- Development of REST APIs and microservices with **Go**, **Node.js (TypeScript)** and **Ruby on Rails**, applying **Clean Architecture**, **DDD** and **TDD**.
- Implementation of event-driven communication with **Apache Kafka**.

Go Node.js TypeScript Ruby on Rails Kafka Clean Architecture DDD TDD
 Technical Leadership

Full Stack Developer | WisePay

Oct/2020 – Mar/2021 · Remote

- Rewrote a Ruby on Rails monolith into a modern architecture: **React** (web SPA) and **React Native/Expo** (Android/iOS mobile app).
- Built a REST API with **Node.js/TypeScript** following **Clean Architecture**, **DDD** and **TDD**.

React React Native Expo Node.js TypeScript Ruby on Rails Clean
Architecture TDD

Full Stack Developer | EduSynch / Levely

Sep/2019 – Oct/2020 · Remote

- Rewrote a legacy Rails front-end into **React** with Styled Components, Storybook, Jest and Cypress.
- Maintenance of **Angular.js** web application and **Ruby on Rails** and **Node.js** (HTTP/**WebSocket**) back-ends.

React Angular.js Ruby on Rails Node.js Jest Cypress Storybook
WebSocket

Part Time Back-end Developer | Yooh

Sep/2019 – Aug/2020 · Remote

- Development and maintenance of **Ruby on Rails** web applications: e-commerce, CMS, LMS platform and institutional websites.

Ruby on Rails

Full Stack Developer | Locadados Data Solutions

Sep/2018 – Sep/2019 · Maceió, Brazil

- Development of Android mobile apps with **React Native** and **Redux**, as well as **Appcelerator Titanium**.
- Maintenance and evolution of web applications and back-end services in **Node.js**.

React Native Redux Node.js Appcelerator Titanium

Full Stack Developer | Onpax

Jul/2018 – Sep/2018 · Maceió, Brazil

- Maintenance and evolution of a multi-level marketing platform in **Ruby on Rails**.

Ruby on Rails

Full Stack Developer | Locadados Data Solutions

Jul/2015 – Jun/2018 · Maceió, Brazil

- Built a vehicle tracking and delivery management system (Maxfrota) with **PHP** (Slim/Doctrine), **MySQL** and **Durandal.js**.
- Created a tracker gateway in **Node.js** with microservices architecture and **TDD**.
- Maintained a cloud document management system (CloudGed) with PHP/MySQL, developing a lite version with **Node.js/Angular.js** and caching with **Redis**.
- Built integrations and auxiliary services (PDF generator, Telegram notifications) in **Node.js**; web interfaces with **Vue.js**.

Node.js PHP MySQL Vue.js Angular.js Redis Microservices TDD

Intern | Sefaz-AL (State Tax Authority)

May/2014 – Oct/2014 · Maceió, Brazil

- Developed an intranet system for intern management using **PHP**, **MySQL**, **HTML**, **CSS** and **JavaScript**.

PHP MySQL JavaScript

Education

Bachelor's Degree in Systems Analysis Cesmac – Maceió, Brazil · 2011–2015
